

## Compressor installation on vehicle

Now that the compressor is rebuilt, it is high time we had it installed in the vehicle. SD 508 compressor is ear mounted.

We will attach the brackets to the compressor mounting ears

Brackets installed.

Right before installation on engine compartment.

Compressor just installed along with driving belt (part number 60548814)

From another angle.

We are now ready as of 33 % of the project. Condensers and evaporator are on the "To Do" list ...

Let's continue with [control panel rebuilt](#)
